

Publications (1998 – 2007)

Animal Welfare

Cloutier S, Skaer TL, Newberry RC. 2006. Consumption of alcohol by sows in a choice situation. *Physiology and Behavior* 88:101-107.

Cronevold CC, Newberry RC. 2007. Group size and cognitive processes. *Applied Animal Behaviour Science* 103: 215-228.

Donaldson TM, Newberry RC, Špinková M, Cloutier S. 2002. Effects of early play experience on play behaviour of piglets after weaning. *Applied Animal Behaviour Science* 79:221-231.

Gifford AK, Cloutier S, Newberry RC. 2007. Objects as enrichment: Effects of object exposure time and delay interval on object recognition memory of the domestic pig. *Applied Animal Behaviour Science* 107:206-217.

Newberry RC, Swanson JC. 2007. Implications of breaking mother–young social bonds. *Applied Animal Behaviour Science* (in press).

Genomics

Cao H, Robinson JA, Jiang Z, Melville JS, Golovan SP, Jones MW, Verrinder Gibbins AM. 2004. A high-resolution radiation hybrid map of porcine chromosome 6. *Animal Genetics* 35:367-378.

Gibson JP, Jiang Z, Robinson JA, Archibald AL, Haley CS. 2002. No detectable association of the ESR PvuII mutation with sow productivity in a Meishan x Large White F2 population. *Animal Genetics* 33:448-450.

Jiang Z, Gibson JP. 1998. Rapid Communication: A PCR– RFLP Marker at the Porcine Complement Factor B (BF) Gene Locus Shows Between Population Frequency Variation. *J. Anim. Sci.* 76:1716-1717.

Jiang Z, Gibson JP. 1998. Rapid Communication: A PCR Amplified Product Length Polymorphism (APLP) Marker at the Porcine Glucosephosphate Isomerase (GPI) Locus Shows Between Population Frequency Variation. *J. Anim. Sci.* 76:1718-1719.

Jiang Z, Gibson JP. 1999. Bi-PASA genotyping of a new polymorphism in the APOB gene shows no evidence for an association with fatness in pigs. *Animal Genetics* 30:54-56.

Jiang Z, Gibson JP. 1999. Genetic polymorphisms in the leptin gene and their association with fatness in four pig breeds. *Mammalian Genome* 10:191-193.

Jiang Z, Gibson JP, Archibald AL, Haley CS. 2001. The porcine gonadotropin-releasing hormone receptor (GnRHR) gene: genomic organization, genetic polymorphisms and association with prolificacy. *Genome* 44:7-12.

Jiang Z, He H, Hamasima N, Suzuki H, Verrinder G. 2002. Comparative mapping of Homo sapiens chromosome 4 (HSA4) and Sus scrofa chromosome 8 (SSC8) using orthologous genes representing different cytogenetic bands as landmarks. *Genome* 45:147-156.

Jiang Z, Melville JS, Cao H, Kumar S, Filipski A, Gibbins AM. 2002. Measuring conservation of contiguous sets of autosomal markers on bovine and porcine genomes in relation to the map of the human genome. *Genome* 45:769-776.

Jiang Z, Michal JJ. 2003. Linking porcine microsatellite markers to known genome regions by identifying their human orthologs. *Genome* 46:798-808.

Jiang Z, Michal JJ, Melville JS, Baltzer HL. 2005. Multi-alignment of orthologous genome regions in five species provides new insights into the evolutionary makeup of mammalian genomes. *Chromosome Research* 13:707-715.

Jiang Z, Pappu SS, Rothschild MF. 2007. Hitting the jackpot twice: identifying and patenting gene tests related to muscle lipid accumulation for meat quality in animals and type 2 diabetes/obesity in humans. *Recent Patents on DNA & Gene Sequences* 1:100-111.

Jiang Z, Rothschild MF. 2007. Swine genome science comes of age. *International Journal of Biological Sciences* 3:129-131.

Jiang Z, Rottmann OJ, Krebs O, Chen J, Liu H, Pirchner F. 2002. A missence mutation in the follicle stimulating hormone receptor (FSHR) gene shows different allele effects on litter size in Chinese Erhualian and German Landrace pigs. *J. Anim. Breed. Genet.* 119:335-341.

Jiang Z, Rottmann OJ, Pirchner F. 1999. Rapid Communication: A BstXI polymorphism in the porcine matrix metalloproteinase 1 (MMP1) gene locus. *J. Anim. Sci.* 77:1026-1027.

Jiang Z, Zhang M, Wasem VD, Michal JJ, Zhang H, Wright Jr. RW. 2003. Census of genes expressed in porcine embryos and reproductive tissues by mining EST database based on the human genes. *Biology of Reproduction* 69:1177-1182.

King AM, Jiang Z, Gibson JP, Haley CS, Archibald AL. 2003. Mapping Quantitative Trait Loci Affecting Female Reproductive Traits on Porcine Chromosome 8. *Biology of Reproduction* 68:2172-2179.

Kunej T, Wu X-L, Milosevic Berlic T, Michal JJ, Jiang Z, Dovic P. 2005. Frequency distribution of a Cys430Ser polymorphism in peroxisome proliferator-activated receptor-gamma coactivator-1 (PPARGC1) gene sequence in Chinese and Western pig breeds. *J. Anim. Breed. Genet.* 122:7–11.

Lahbib-Mansais Y, Leroux S, Milan D, Yerle M, Robic A, Jiang Z, Andre C, Gellin J. 2000. Comparative mapping between humans and pigs: localization of 58 anchorage markers (TOASTs) using porcine somatic cell and radiated hybrid panels. *Mammalian Genome* 11:1098-1106.

Pan ZX, Liu HL, Chen J, Xu D, Jiang Z, Xie Z. 2005. In silico discovery of genes expressed in liver, kidney, spleen and small intestine of pigs. *Asian-Aust. J. Anim. Sci.* 18:170-178.

Rothschild MF, Hu Z-L, Jiang Z. 2007. Advances in QTL mapping in pigs. *International Journal of Biological Sciences* 3:192-197.

Nutrition Management

Chen S, Wen Z, Liao W, Liu C, Kincaid RL, Harrison JH, Elliott DC, Brown MD, Stevens DJ. 2005. Studies into using manure in a biorefinery concept. *Appl Biochem Biotechnol.* 121-124:999-1015.

Hostetler CE, Kincaid RL. 2004. Gestational changes in concentrations of selenium and zinc in the porcine fetus and the effects of maternal intake of selenium. *Biol Trace Elem Res.* 97: 57-70.

Hostetler CE, Kincaid RL. 2004. Maternal selenium deficiency increases hydrogen peroxide and total lipid peroxides in porcine fetal liver. *Biol Trace Elem Res.* 97:43-56.

Hostetler CE, Kincaid RL, Mirando MA. 2003. The role of essential trace elements in embryonic and fetal development in livestock. *Vet J.* 166:125-139.

Hostetler CE, Michal J, Robison M, Ott TL, Kincaid RL. 2006. Effect of selenium intake and fetal age on mRNA levels of two selenoproteins in porcine fetal and maternal liver. *J Anim Sci.* 84:2382-2390.

McNamara JP. Practical amino acid and dietary energy management for the sow herd. *Proceedings of the Washington Swine Information Day, February 6, 1998.*

McNamara JP. 1998. Interaction of glucose and amino acid metabolism in lactating sows: estimating internal parameters of a model of metabolism. 1998 in: McKracken, K, (Editor), 14th Symposium on Energy Metabolism of Farm Animals, EAAP Publication No. pp 32-35.

McNamara JP. 2005. Research, improvement and application of mechanistic, biochemical, dynamic models: from Genetics to Kinetics. Chapter 6 In: *Mathematical*

modelling in nutrition and Toxicology. Proceedings of the 8th International Conference on Mathematical Modeling in Nutrition and Health Science. Georgia Center for Continuing Education, pp 87-110. Mathematical Biology Press. ISBN 1-4116-2594-3.

McNamara JP, Pettigrew JE. 2002. Protein and energy intake in lactating sows. 1: Effects on milk production and body composition. *J. Anim. Science*, 80:2442-2451.

McNamara JP. 2006. Modelling metabolism in the lactating sow: mechanistic modelling at the metabolic level. Pp 282-305, Chapter 14 In: *Pig and Poultry Modeling*, R. M. Gous, T. R. Morris and C. Fisher, eds. CAB International, UK.

McNamara JP, Boyd DE. 1998. Hormones as Quantitative Controllers. Chapter 9, pp 199-225. In "Quantitative Biology of the Pig". CAB International, London, UK.

McNamara JP, Murray C. 2001. Sympathetic nervous system activity in adipose tissues during pregnancy and lactation of the rat. *J. of Dairy Sci.* 84:1382-1389

McNamara JP, Pettigrew JE. 2002. Protein and energy intake in lactating sows. 2. Challenging parameters of a model of metabolism. *J. Anim. Sci.* 80:2452-2460.

Reproduction

Blackwell DM, Speth RC, Mirando MA. 2003. Morphometric analysis of the uterine endometrium of swine on days 12 and 16 postestrus. *Anat Rec A Discov Mol Cell Evol Biol.* 270: 59-66.

Braileanu GT, Hu J, Mirando MA. 2000. Directional secretion of prostaglandin F₂(α) by polarized luminal epithelial cells from pig endometrium. *Prostaglandins Other Lipid Mediat.* 60:167-174.

Braileanu GT, Simasko SM, Hu J, Assiri A, Mirando MA. 2001. Effects of arginine- and lysine-vasopressin on phospholipase C activity, intracellular calcium concentration and prostaglandin F₂(α) secretion in pig endometrial cells. *Reproduction.* 121: 605-612.

Braileanu GT, Simasko SM, Speth RC, Daubert DC, Hu J, Mirando MA. 2002. Angiotensin II increases intracellular calcium concentration in pig endometrial stromal cells through type 1 angiotensin receptors, but does not stimulate phospholipase C activity or prostaglandin F₂(α) secretion. *Reprod Fertil Dev.* 14: 199-205.

Braileanu GT, Simasko SM, Uzumcu M, Mirando MA. 1999. Intracellular free calcium in response to oxytocin in pig endometrial cells. *Mol Cell Endocrinol.* 155: 77-83.

Carnahan KG, Prince BC, Ludwig TE, Uzumcu M, Evans MA, Mirando MA. 1999. Effect of oxytocin on concentration of PGF₂ α in the uterine lumen and subsequent endometrial responsiveness to oxytocin in pigs. *J Reprod Fertil.* 117: 207-212.

Carnahan KG, Uzumcu M, Hu J, Sample GL, Braileanu GT, Miranda MA. 2002. Oxytocin stimulates secretion of prostaglandin F₂α from endometrial cells of swine in the presence of progesterone. *Domest Anim Endocrinol.* 23:435-445.

Hu J, Braileanu GT, Miranda MA. 2001. Oxytocin stimulates prostaglandin F₂α secretion from porcine endometrial cells through activation of calcium-dependent protein kinase C. *Prostaglandins Other Lipid Mediat.* 65:85-101.

Hu J, Braileanu GT, Miranda MA. 2003. Effect of ovarian steroids on basal and oxytocin-induced prostaglandin F₂α secretion from pig endometrial cells. *Reprod Fertil Dev.* 15: 197-205.

Hu J, Ludwig TE, Salli U, Stormshak F, Miranda MA. 2001. Autocrine/paracrine action of oxytocin in pig endometrium. *Biol Reprod.* 64: 1682-1688.

Kubotsu SL, Hu J, Carnahan KG, deAvila J, Ott TL, Miranda MA. 2003. The effects of chronic ethanol consumption during early pregnancy on conceptus health and uterine function in pigs. *Alcohol Clin Exp Res.* 27:712-719.

Ludwig TE, Sun BC, Carnahan KG, Uzumcu M, Yelich JV, Geisert RD, Miranda MA. 1998. Endometrial responsiveness to oxytocin during diestrus and early pregnancy in pigs is not controlled solely by changes in oxytocin receptor population density. *Biol Reprod.* 58: 769-777

Ludwig TE, Whiteaker SS, Carnahan KG, Tysseling KA, Miranda MA. 1998. Control of endometrial phosphoinositide hydrolysis and prostaglandin F₂α secretion in pigs. *Reprod Fertil Dev.* 10: 249-254.

McLean DJ. 2006. Vertebrate reproductive stem cells: recent insights and technological advances. *Semin Cell Dev Biol.* 17: 534-539.

Sample GL, Blackwell DM, Kubotsu SL, Miranda MA. 2004. Endocrine secretion of prostaglandin F₂α in cyclic gilts is decreased by intrauterine administration of exogenous oxytocin. *Anim Reprod Sci.* 84: 395-406.

Sample GL, Kubotsu SL, Carnahan KG, Miranda MA. 2000. Interestrus interval of cyclic gilts is decreased by systemic but not intrauterine administration of exogenous oxytocin. *J Anim Sci.* 78: 2393-2398.

Uzumcu M, Braileanu GT, Carnahan KG, Ludwig TE, Miranda MA. 1998. Oxytocin-stimulated phosphoinositide hydrolysis and prostaglandin F secretion by luminal epithelial, glandular epithelial, and stromal cells from pig endometrium. I. Response of cyclic pigs on day 16 postestrus. *Biol Reprod.* 59: 1259-1265.

Uzumcu M, Carnahan KG, Braileanu GT, Miranda MA. 2000. Oxytocin-stimulated phosphoinositide hydrolysis and prostaglandin F₂α secretion by luminal epithelial,

glandular epithelial and stromal cells from pig endometrium. II. Responses of cyclic, pregnant and pseudopregnant pigs on days 12 and 16 post oestrus. *Reprod Fertil Dev.* 12:157-164.
